

Save Time. Increase Profits. Flourish.

Content distributors receive hundreds of incoming reports each month from OTT platforms. These reports come in varying formats. They come with varying data fields. They arrive in your inbox at varying frequencies throughout the month. Content creators, FAST Channels, AVOD and SVOD applications, need to know their monthly metrics, including revenue generated, quickly.

Today, it takes dozens of hours a month and costs thousands of dollars to get these incoming reports ready for accurate royalty payments.

Pando has solved the tedious, mundane, and time consuming data aggregation and analysis of monthly reporting. Our AI-Driven, human in the loop software, automates, cleans, and standardizes your monthly reports.

Our product was designed by OTT insiders who forecast upward growth and outward spread. We empower you, the OTT applications, the content distributors and the producers, so you can focus on generating revenues, optimizing your content, and subscriber and viewer acquisition and engagement.

Pando Will:

+Save You Time & Money with Automated Reporting

+ Integrate with your content management platform

+Capture and standardize your video platform reports

+Provide anomaly detection, providing more accurate results

+Discover New Revenue Opportunities

Take control of your data before it controls you.

Why Us?

We're not analytics generalists, we're OTT industry experts. We are world class data scientists. We've been in the same excel spreadsheets as you each month and know your challenges, feel your pain and have shared your frustrations.

That's why we developed an industry specific, AI tool to automate your data reconciliation accurately. Now you have the ability to enhance all other areas of your organization; ie content production and acquisition, content ROI, revenue modeling, and royalty reporting.

No More Manual Reporting.
